

Graduate programs in Economics are built on a common solid training in economic theory, statistical methods and econometrics, equivalent in content and rigor to the first year of top graduate programs worldwide. The flexible structure of the programs is designed to meet a wide range of student objectives. Students are trained to attain scientific competence and conduct independent and original research conforming with the highest international standards. Students who aim to serve as economists or researchers in the public or private sector are equipped with highly demanded skills in economic analysis and policy.
